
A Website GDPR Compliance Checklist

- ☐ Map every tag, cookie, and vendor request firing on the site
- ☐ Classify each cookie as essential or non-essential
- ☐ Deploy a consent banner with granular category controls
- ☐ Confirm Accept and Reject buttons have equal size, prominence, and click count
- ☐ Confirm nothing non-essential fires before the user interacts with the banner
- ☐ Confirm Reject-All actually stops non-essential tags from firing
- ☐ Test that Global Privacy Control signals are honored the same way Reject-All is
- ☐ Document a lawful basis for each category of processing
- ☐ Maintain up-to-date records of processing activities
- ☐ Complete data protection impact assessments for high-risk processing
- ☐ Confirm data processing agreements are signed with all vendors
- ☐ Build a process for fulfilling data subject access requests within 30 days
- ☐ Schedule recurring audits rather than a one-time check
